

Congresswoman Debbie Lesko (R-AZ)

Hi. I'm U.S. Congresswoman Debbie Lesko from the great state of Arizona. Thank you for having me be a part of your conference again this year. I want to congratulate and applaud the Iranian American community throughout our nation and especially in my state of Arizona. That's why I cosponsored House Resolution 118, to support a democracy in Iran and a nuclear free Iran.

Again, I want to thank you for everything that you do in our communities and through other nations and for your work to make sure that Iran is nuclear free and has democracy for its people.

Thank you and God bless you.
